

Your guide to program rates at Hazelden in Chicago

At Hazelden, clients and families are able to turn down the noise of the outside world and focus on making physical, emotional, spiritual, and behavioral changes that build lifelong recovery from addiction.

Every treatment plan is individualized, so the cost of care will vary by client. A financial case manager is available to answer your questions regarding costs and insurance coverage. Hazelden is an in-network insurance provider for many major insurance carriers. Some financial assistance may be available to those who qualify. For all programs, the assessment costs are rolled into the cost of treatment.
